

DRAKE, TANAATH & SUNFIRE SHOW 7/10

Q = Question

D = Drake

T = Tanaath

SW = Sunfire

Drake: People think this is a joke. Getting the most childish questions. Some questions lack moral guidance. Changes are underway. Surprise is coming. People will experience lucid dreaming, telepathy, precognition.

Q&A starts at 8:34 mins

Q: Fulford wrote that the cabal is willing to surrender. Signs I would look for are the gold and silver price suppression to be lifted and the Keenan case to go smoothly. Even if cabal surrender, won't interest rates still increase due to Basel III and cause the derivatives bubble to implode, bringing down global stock and bonds, as Lindsey Williams is saying?

D: Pretty much generally correct but less specific

Cabal had their chance.

Won't get another one.

If they wish to voluntarily surrender, that's fine

They'll be accepted and protected.

Derivatives won't cause implosion of stock markets

Derivatives that underwrite bonds will affect bond market.

Bond market does go to valuation of corporations so you will have reflection of this in the stocks.

It will not be a cascade; everything go over the waterfall kind of deal

If cabal has not surrendered in any shape or form and is attempting to kill me or Keenan, then yes, get your foot off the COMEX

Allow the financial institutions under Basel III to absorb the cost, as they should have at the beginning anyway.

Show me that they're willing to accept the fallacies, lies and falsehoods that they perpetuated upon the people to the extent they're no longer in any position of power.

Never to be trusted with that position or any position like it, again

If they're willing to accept that, you can come and surrender.....

If they wish we can work something out

Other than that, these people have shown that they talk out of both sides of their face.

.....We are not going to give up and no, we're not going to be easy

You can expect certain people in the cabal to receive the sharp end of the stick for their actions.

You're going to be held accountable specifically for the attempts made on our lives amongst other things

11:50 mins

Q: Are there certain beings that use water to communicate?

Jesus showed up in my shower.

I was directed to a friend's home

When I arrived at my friend's house, it was close to a bad situation for her

You have dismissed the Jesus Christ idea

The being did seem benevolent in many ways.

Who was it?

Do guides come looking like dog?

T: Yes, there re beings that use water in order to communicate

I don't know who/what this being was.

Generally if it's trying to present itself as that kind of a figure, then it's usually a dishonest being.

But if it was acting benevolently, then if you weren't harmed and your friend wasn't harmed, there's probably not a lot of problems that come with this.

S: I've heard of guides that present themselves as a figure that is familiar to the individual so as to avoid causing ... shock Sometimes, they present themselves as a recognisable figure. It's rare.....

Q: Do guides come in a dog?

T: Yes. Any close animal companion can actually take the role of a guide.

So cats, dogs, even your pet leopard gecko or whatever.

If it's capable of an emotional bond with you, it can likely be a guide.

S: A good example of that - my pony is my guide and my teacher.

She was the one that taught me telepathy before my brother took over.

She's taught me a lot since.

Denise: my horse is my guide

S: They are wonderful guides. Very intelligent.

15 mins

Q: T says she does not use visualisation to access the Silver Legion and her work outside of 3D.

Does she do this by extending her consciousness beyond her body and does she inhabit a type of avatar once becoming active in the Silver Legion?

How is this done, please?

T: I do extend my consciousness out of my body.

I do not inhabit an avatar or puppet.

Instead, I have my consciousness in 2 or more places at once - down here on Earth and out there at the Silver Legion.

I'm in my proper body there.

There is a trans humanist agenda being operated now which intends to switch all of us to remotely controlled bodies as a way to extend human lifespan and consciousness.

This is not necessary and has some very, very negative and grave implications for not only humanity as a whole, but also for some other intelligent species in this galaxy and universe.

So I would suggest that people at this time, trying to cure Terran mortality by

putting yourself into another body or even an electronic puppet or mechanical puppet is counter-productive and not to be giving you what you desire. If you wait long enough, which isn't going to be very long on this planet, all of those problems that these solutions have been purported to deal with, will be fixed.

What we have is a classic case of Problem - Reaction -Solution

The end goal is trying to get us into mechanical bodies so that we can be rendered devoid of emotion and easily controlled that way.

So many of the problems that we suffer now have been created deliberately in order to make it attractive to have that kind of solution.

So don't do that.....

Yes, I believe anyone can learn to bi-locate.

How to do this? I don't know.

I just do it. I don't usually think too hard about how it is I do it.

So I don't know if I'm a good one to be teaching others on how to do that.

18 mins

Q: Will 4D humans join the Silver Legion warrior class in the future?

Physical requirements?

T: Yes. The Silver Legion recruitment will be open to 4D Terrans.

Joining requirements depends on the talents of the individual and desires of the individual

Obviously, somebody who prefers the physical arts, combat, marksmanship etc will have some skill already or some aptitude...

Those who prefer the picnics or the magic; there's also potential for that.

Training is provided.

One of the first things we do is have people strut their stuff so they show us what they can do.

After that, we usually do some in depth aptitude testing to see if they have potentials they want to explore additionally, such as magic.

I think a lot of Terrans might be pleasantly surprised to find out that they do indeed have magical and/or psionic potential and will probably want to take advantage of that and get training in that.

Plus there are those who really, really like space and space exploration and ships.

We always have a need for engineers

We always have a need for pilots.

People who enjoy that kind of work are always welcome.

So generally, anybody who feels a call or pull to the Silver Legion, will probably find something they can enjoy doing there.

Recruitment will be open.

It's pretty egalitarian so you don't need to worry about not being strong enough or being buff enough.

It could be that your talent lies somewhere else

20:15 mins

Q: Is astral travel really not coming out of body at all but simply expanding our consciousness any way as in the quantum principle of no distance between things?

T: It's generally thought of that way.....

Some people leave the body.

Some people expand their consciousness.

Some people bi-locate.

There's no right or wrong way to do it.

Yes, some people do leave the body entirely.

Those are generally the ones who speak about having a silver cord.

It's a very real thing, a very real phenomenon

I bi-locate and I expand my consciousness.

It's 2 different methods and I use both.

Mostly the bi-location.

21:17 mins

Q: How does Darwinism explain all the skeletons found that show those who were up to 12 feet tall?

T: I think that would be up to Darwinists to explain

S: Skeletons have been found up to 35 feet in humanoid form.

Not just 12 feet.

I've read of some being 16 to 18 feet tall

I've heard of some up to 35

21:50 mins.

Q: The ancient dinosaurs lasted hundreds of millions of years.

Was Terra located in our solar system during that time?

T: During the time of the dinosaurs?

Yes, I do believe it was in our solar system

S: [inaudible]

22:10 mins

Q: Did any sentient beings inhabit Terra during that time?

Perhaps humanoid reptiles?

S: You got to consider that dinosaurs are sentient.

Dinos were the birds, were considered sentient...

There was an Andronii UFO that was found crashed into some strata that was about ... 75 million years old

T: There were 2 Apatosaurus skeletons on board, I think.

[T might be wrong here as they might have been Diplodocus]

As far as I understand it, the ETs have been coming and going since it was created.

And the planet is 7.5 billion years old, give/take

23:05 mins

Q: What led to the demise of the dinosaurs?

Was it the result of a giant asteroid striking the Earth?

S: No, it wasn't.

There is a show that was done where they had some geologists and anthropologists go around Canada and they managed to fully debunk the asteroid theory and I understand the majority of the dinosaurs were transported off planet because they were considered to have done their purpose here on the planet and were a general threat to the agenda of the various ET races that wanted to move on with their experiment.

So they transported them to another planet....

T: There are more intelligent dinosaurs.

First of all, I would like to remind people that dinosaurs are NOT reptiles.

They are more closely related to mammals and birds than they are to reptiles. So any reptilians claiming to be descendents of dinosaurs and thus legitimate inheritors of this planet, are lying.

Flat out lying.

S: The reptilians didn't come anywhere near the planet until about 26,000 years ago.

Prior to that, humans and every type of animals settled here.

So no, the Reptoids were not here first.

They weren't even [inaudible]

24:59 mins

Q: Dan Burish and his story about the ETs being human time travellers or J- rods that mutated along with survivors from another crash ship in 1953.

Also future humans from 40 to 52 thousand years in the future.

Truth?

In that timeline, Earth did not appear to ascend

T: That's a representation from a negative timeline which is one thing we have been working to insure is not the primary timeline and have pretty much succeeded in.

So they can try to time travel back here all they want to try to insure their own timeline but we won't let that happen.

S: [inaudible]

25:50 mins

Q: Sasquatch - seem to possess extra dimensional abilities.

They have been here longer than us and were brought here by the star people Thoughts?

S: They are dimensionals and they can travel between one dimension and another and they are [inaudible] sentient beings.

Don't know how long they've been here

The reason people can't find them is because they travel inter-dimensionally....

27:25 mins

Q: In a previous show, you mentioned that the Hollow Earth has been cleared out.

.... The Agarthans are our cousins and the good guys.

Eg the account by Admiral Byrd - his trip to the Hollow Earth portrayed the Agarthans as good people.

Why have these people been cleared out?

T: They were found to have been actively maintaining the soul trap and the oppression on the planet.

So while some might have been good, it was felt that it was best that they would be removed until this is over so that they cannot continue to interfere

S: This is also at the request of Gaia and they were determined to be not acting in the best interests of Gaia and her people here on Earth's surface. She expressed her opinion about wanting them gone by dumping a boulder on one of their heads when they were protesting.

30:16 mins

Q: Planet of origin of an extraterrestrial team of very tall humans, presently working on Earth with very sophisticated equipment, extracting the etheric implants in incarnates and Terrans?

T: Sound like the Arcturians.

S: The Arcturians or the Procyons.....

31 mins

Q: Nefarious act to multiply the energies gained and stolen from us Terrans by being cloned by the Greys or reptiles, creating multiple timelines?

T:: Haven't heard that and given what I understand about cloning, it would not have that effect.

Cloning creates a copy but that copy does not have a soul.

So you cannot milk emotional power from a clone, unless it's inhabited by a soul.

Eg if the original body dies and then that soul goes on to inhabit a clone (which sometimes happens when there has been a clone made), then yes, you'd be able to get emotional energy from that being.

....Cloning somebody every 10 mins to milk them would not produce a milkable result.

That sounds like disinformation or something to panic people.

I wouldn't pay any attention to that.

32:30 mins

Q: Reason I ask is because last summer, my final nocturnal dealings - the Greys or Browns in my case, also had a few daytime moments.

Then dreams of another me feeling what her life was/is.

She was shocked to feel my life as I was.

As soon as I felt her, we were aware of each other.

Very disconcerting feeling.

The dream that night was even weirder.

Could this be true? Involuntary cloning.

T: That is not involuntary cloning

Nothing to do with Greys or Browns.

That is an instance of spontaneous quantum jumping or the ability to see yourself in another reality or timeline or an alternate universe or parallel universe and become aware of that existence.

It's a natural thing.

You can learn how to do this deliberately with a little bit of practice and sometimes, it happens to people spontaneously.

It probably did not have anything to do with the ETs involved with your life.

Remember not everything lies at their feet.

Sometimes other things happen that are not related so don't think that as it's happened that it has to be related to them.

It was also not a cloning.

It was a glimpse of yourself in another reality; possibly another timeline or a parallel dimension or a parallel universe; possibly another alternate reality.

It's nothing to be afraid of.

It's not usually a permanent thing and you can actually use this to gain insight to how other yous have lived

Eg Maybe you have dreams of being a famous author or maybe you want to be a movie star.

In some alternate universe somewhere is a you that has done that.

There's a you who is male, a you who is female.... a you who is rich and famous, living on the streets.

For every possibility that exists, there is an alternate you that is doing that.

You can, using quantum jumping, go to those alternate realities and become aware of those other yous and find out how they did it.

It might not always be worthwhile.

..... I've used this technique myself and some of the possibilities that I saw, required certain kinds of effort that I'm not particularly interested in putting forward in order to receive those results.

So just because it's possible doesn't necessarily mean that it's something you wish to do in order to achieve whatever it is that you want.

Don't be afraid of it.

It's nothing to be afraid of and it didn't have anything to do with aliens.

36:15 mins

Q: Can you say something nice of John K in terms of following his page/forum?

S: Have nothing bad to say about him.....

I left his site because ...was required by the Federation work to put my sole attention and energies into the mission and not have any other distractions..... taking my time and energy away from the mission.

That's what I signed up for.....

He's a great guy and his books are really well researched.

..... Use your own discernment.

37:46 mins

Q: Drake's book mentioned the ETs, so called, the Q(?) remind me of the Star Trek Next Generation and Star Trek Voyager.

Do they have similar powers like the ones in Star Trek and if yes, could they help in neutralising the holographic technologies of the bad guys to look human so we can have some wonderful show?

D: Those powers and abilities are real.

Yes, employed as far as possible as it can be employed.

You can affect a situation but you should not affect an individual without their permission.

It goes to the sovereignty of the individual.

You don't play games with people or things or entities or sentient beings.

That is a no no.

Because when you do that, you overstep the boundaries of freedom of will which is what the Creator has given us to begin with....

Something that wants to do something for you is all well and good, with your permission

..... Absolute understanding of what you are doing.....

S: People who wish to know more about what the Q(?) are, look up the book "The Enlightenment".

It's on the website of Unicus magazine...

The being Talawanda is one of the Q(?)

It's a great book that I think everybody should read.

40:28 mins

Q: Are the Qs (?) human and similar to ?? from Babylon 5 using science to create magic?

D: You're getting into an area that's a bit iffy because it involves a combination of things that cannot be categorised or put into a technology and yet also involves technology and wilful intent of individuals.

99% of all magic is wilful intent.

The 1% know how to do it

There's a lot in that.

It'll take 3 or 4 books you'd need to read on the subject

I'm going to look for a website and try to post it and contains a lot of the information..... to give you what you need to know to understand what is going on if you decide to get that deep into this.

41:50 mins

Q: Are Q people part of the Silver Legion now?

Are the Silver Legion close to removing all of the demon entities from this planet?

T: There are Q members of the Silver Legion.

As for the last - we think we must be getting close but it's one of those things

where we don't have a visible meter or something that shows us our progress in order to tell when we're done.

42:25 mins.

Q: How many Draco reptilians are on the planet?

T: Most likely less than 500.

42:40 mins

Q: What is the latest deadline/time for humans to be informed about transition in order to make a decision to stay/leave.

Tolec mentioned that those who decide to stay in 3D have to leave this planet before the end of this year, using Andromedean Council biospheres

S: Yeah, they have to leave before the end of this year.

..... I don't give time frames and deadlines but we're looking to ASAP.

43:20 mins

Q: What will happen if the cabal is not removed before the end of this year? Will the operation still be feasible?

T: Regardless, ascension is going to take place.

S: Yeah, but I'm very confident they will be removed before the transition. I have no doubt about it.

43:59 mins

Q: Could you draw some kind of scheme/picture/map where Earth is right now?

Where are we?

What is happening in 4th density right now in co-ordinates where Earth is now in 3rd density?

Is it empty?

T: A map or visual reference will not serve much useful purpose.

... I couldn't even draw one.

S: Yeah, me neither.

My crewmate who is a cartographer could but he's not down here right now.

No, it's not empty in 4D.

The planet exists in multiple dimensions all the way up to 12D - a representation of the planet.

T: A placeholder, so to speak.

S: Yeah, a placeholder.

The majority of the planet essence and presence is in 4, 5 and 6D [inaudible]

45:06 mins

Q: Will Earth be viewable from 3rd density?

T: There will be a placeholder still in 3rd dimension.

It will be one that will be rather on the barren side so it's not a place that will be very habitable.

S: It won't be habitable at all in 3rd dimension after the transition [inaudible] gas planet, like Jupiter or the other gas planets Jupiter in 4D and higher is a planet that is inhabited but in 3D, it is a gas planet.

46:46 mins

Q: Who the angels are?

Are they regular flesh and blood humans or are they spirits, God's messengers?

T: Which god are you talking about in terms of 'messenger'?

Angels are a class of celestial beings.

There are multiple types of them, including elemental and other varieties.

Some don't even have forms as we would consider it, but instead appear as beings or pillars made out of pure energy.

Others do have form and take the form of a humanoid or winged humanoid.

There are many different kinds of angels.

Some are affiliated with various gods.

Others are not.

They are more than just messengers.

In many cases, angels are powerful creative beings in their own right.

Ones with freewill (and no, it's had nothing to do with rebelling from God or anything like that) are also fighting for other people to retain freewill or regain it if it's been taken away.

So they are freedom angels.

There are angels incarnate among us but that does not mean that everybody is an angel or that people become an angel when they die any more than people become a dragon or become a tree or become a ferret when they die.

If you are already a dragon or a tree or a ferret, then you can be one.

If you wish to go back to Source and get born as an angel, a dragon, a tree, a ferret or whatever, you can do that. There is that choice.

But you don't get to automatically become something without going through that life.

S: Not all angels are positive.

There are positive ones, negative ones and there are neutral.

49 mins

Q: If we are getting millions of ET visits, why can't the Silver Legion or Andromeda Council land on Terra?

T: The Andromeda Council can land sometimes.

Don't know exactly all the details with that.

The Silver Legion is specifically locked right now.

We're working on fixing that.

M ships in the sky and had trips on request.

So I'm pretty certain it's not a satellite or a meteor or a plane because if I'm giving telepathic requests for them to do something and they're doing

something, well that's usually a pretty good idea.

No, I don't have a camera that is capable of capturing night sky movements

S: Recommendation for people who want to tape UFOs get a true full spectrum video camera

You'll find them on the go hunting websites

51 mins

Q: UFO report from Snowden's latest report.

D: Suggest the US government stand down....

We have a problem with the US government in terms of their actions and activities and attitudes towards we the people

I found a report from a certain judge on Fox News today that most of the successful prosecutions from the NSA eavesdropping, wiretapping etc comes from the content or knowledge of crime committed and not reporting it rather than from any terrorist fun and games.

NSA, your own records show that you are lying to us.

52:17 mins

Q: More info on the soul trap or karma wheel.

Was it taken down and if so, by whom?

T: We have been very involved in removing the karma trap.

We have managed to remove most if not all of the apparatus involved in that.

If we find any more, we will remove them as soon as they're found.

53 mins

Q: What kind of training will the Silver Legion provide besides combat simulation?

T: We have a lot of different education and training.

Since we are a military organisation, a lot of it would be combat oriented or survival oriented.

But there is also other training.

There is non-combat training and civilian training...

We have people who specialise in teaching healing and even certain varieties of art and crafts.

It varies on the individual's capabilities and interests.

Q: Will there be training in hand-to-hand combat and techniques eg kung fu...?

T: Yeah, we have people who are specialists in many varieties of hand-to-hand and other training.

54:30 mins

Q: Sunfire, when you were on the John Kettler site, you talked about a mass download of information to the people to wake everyone up.

Will this still work?

S: There is still a plan to do that on a mass scale.

Don't have a time frame on that.

It's still being modified, adjusted and will be done so that it will have the greatest benefit for the entire population and the least amount of problems and complications.

We also have to consider the freewill of the population and not infringing on that as well.

55:30 mins

Q: Alex Collier has said that some of the reptoids are 22 feet tall and extremely strong and almost impossible to defeat using hand-to-hand combat. How do 4D humans or non-reptoid sentient beings compare to the 4D reptoids and Draconians?

T: There are people who can take them apart in a matter of seconds
Me? All it takes is a good swipe as I'm very large

S: With my people, the Tau Cetians, ... and Procyons are natural enemies of the race... and so are the Andronii.

The Andronii range from 5 feet to 5½ feet tall and one of those can drop a Draco in 30 seconds max.

Tau Cetians can take on 2 or 3 at one time but prefer to avoid it....

T: Most Terrans on this planet would probably not be able to toe-to-toe it with a big Draco but after the ascension and with some training, it's a different story.

Q: Are reptoids and Draconians generally faster and stronger than other 4D sentient beings in the universe?

T: Nope, definitely not.

57:40 mins

Q: Will we still feel extreme pain like in 3D when we're hurt during combat?

T: It is very muted but yes.

It depends on how badly hurt you are.

Minor wounds you may be able to shake off and you may even have some regeneration.

Eg scratches and grazes and cuts might heal rapidly if not instantly.

There is still pain.

Pain is a response that tells you that you've been hurt...

It's useful in terms of understanding that you need to step back from whatever did that.

Pain never goes away entirely but it's not as bad and people recover more quickly...

Chronic pain is not something that people will need to worry about.

If you get hurt, you'll feel it.

It won't be incapacitating and probably won't be permanent either.

Even if you get a limb severed and even killed, there's a way to heal that.

S: Everything in 4D and above is curable, even death.

T: Yup

59:05 mins

Q: You said that a magnitude 12 earthquake would be dissipated with the help of our friends to 3 different areas of manageable sizes.

Is this related to the Louisiana sinkhole and natural gas well in the Gulf that is reportedly leaking in an effort which the cabal is using to blow the New Madrid fault line?

T: They are not going to get their New Madrid.

S: They might as well stop trying....

T: The sinkhole is a cabal's attempt to cause problems with the New Madrid. They're not going to get it.

1:00:06

Q: I've been seeing things in the corner of my eyes, like little black shadows on the ground about the size of a small insect.

Many times, I've had dreams of the future and it'll happen exactly as my dreams.

I've also had dreams of being shot to death and also of being in a building watching a tsunami coming towards us.

Am I seeing my future or alternate futures or what?

Also have dreams of being chased.

T: There's many different kinds of dreams.

Not all dreams are the same.

As somebody who has had prophetic dreams and who also has regular, old normal dreams, there is a difference between them.

Just because you dream it doesn't mean it'll come true.

In this case, it sounds like somebody/something is trying to convince you that you're in danger so that you'll manifest that through fear.

They're leveraging the fact that you do have prophetic dreams in order to get you to create a false assumption that all your dreams are prophetic and then implanting hostile dreams in order to get you to manifest that in essence to get you to create a self-fulfilling prophesy.

Don't give those any credence whatsoever.

1:01:45

Q: Is it true that the Rothschilds are vampires and have you ever fought them?

T: Don't know specifically if the Rothschilds are vampires but vampires exist. Some are unfortunate human beings who lack the ability to create certain kinds of essential energies on their own.

Others are far more hostile and far more deliberate and intentful.

Yes, I have fought some.

I also have some who are friends.

Difficult to judge.

Usually those who are doing harm and sought the condition deliberately are those I have a problem with.

BREAK

1:12:15

Q: Why are the banksters still in power?

D: Because we haven't taken them out yet.

They are losing their power.

Their finances are slipping.

Their capability to influence is negated slowly.....

It's going to get worse before it gets better...

1:12:58

Q: When we go to 4D, there will still be war and fighting.

What is the point of going to 4D over staying in 3D on another planet?

We get special abilities in 4D but which dimension would be most peaceful?

T: If you're looking for the most peaceful dimension, you would be looking at the wrong thing.

Dimensions are not what are peaceful.

It's societies.

Peaceful societies exist in all dimensions, 3D, 4D, whatever.

It is planned that the 3D planet that humans choose to go to will be peaceful.

It is also planned that this planet will be peaceful.

Most of the societies that incarnates originate from, are generally peaceful.

So you won't find it by going to a specific dimension.

Instead, you should go to a specific society or even stay with this one.

S: I agree

1:14:26

Q: Once we all hit 4D, will we right away remember all our past lives?

T: You will immediately remember some of it.

As for all of it, not even higher dimensionals remember of it at all times, especially those beings with extremely long existences that span multiple universes.

Then they remember as needed.

They choose to forget at a time, then remember at a later date.

1:15:18

Request for information on books etc mentioned during the program to be posted on Facebook

Denise said there is no time nor staff for this.

Go to the archives.

Someone is doing the transcripts on Facebook.

Also try to put on Drake's website.

1:17:35

Q: There is a constant noise in my head that sounds like a soft, summer night.

Doesn't bother me but wonder if this is a negative vibration that keeps me from experiencing true peace and joy?

I often find myself feeling tense....

Will silence reign once I'm in 4D?

T: Don't know.

S: Possibility that the person is hearing the natural noises of the planet.

[inaudible]

Re: feeling tense - examine your environment, your feelings, what could be the cause at that place and time.

The tone you're hearing constantly may not be the only cause.

Recommend this because you should develop your instincts and intuition and your ability to track forces and energies [inaudible] protection and defence that everybody needs any way.

1:18:57

Q: How much of the financial aspect that Neil is working on, and the plans to reverse back to the original Constitution and Bill of Rights is of paramount importance to us when we get to 4D?

Are we trying to make these changes for those who choose to remain in 3D and move to the new planet so that they have a good start on their new civilisation?

D: We need to do everything we can to prepare ourselves, mankind, society etc in such a manner that we can be as compatible as possible before the transition.

Meaning that we have very little time to do so.

Meaning that there will be extraordinary and in some cases, sudden changes. These things are to allow mankind to be as peaceful with each other as possible in order to make this transition smooth for us.

Those who would enter in fear and extreme anxiety and paranoia are going to have a rough time.

It may leave scar tissue in 3D.

In some cases, can cause demise of individuals.

It varies depending on the depth of fears involved.

That is the reason for this show and answering questions on what is coming.

You've got the spiritual, ET, angel side in conjunction with the humanity side of making sure that we've got our stuff straight

1:21:40

Q: After receiving the latest Wal Martian email and Tanaath saying that they monitor all PCs, is this why we haven't had contact yet?

T: No.....

S: No....

1:22:07

Q: Hermes, Zeus, and Silver Legionnaires like Grimm and Merlin - what causes them to be unable to manifest here?

Is it something to do with our program making the energy unfit for manifestation?

T: No, things have been put in place specifically to prevent manifestation of higher dimensional entities on this planet.

Somebody saw this possibility and took steps to make it difficult to do.

1:22:45

Q: How are free energy schematics coming along?

For those of us who want to learn this technology, maybe we can start to distribute them so that we can begin to learn.

D: Waiting to offer more advanced technology

Wait and see what comes about.

1:24:20

Q: Tanaath mentioned the truth in Mercedes Lackey's version of magic in her books.

I've heard that Harry Potter and Lord of the Rings versions of magic are also existing forms of magic

T: Everything exists but don't know if you can get Wingardium Leviosa to work here.

Everything exists somewhere.

I think if you need a crutch like a wand to make it work, you're doing it wrong

1:25:09

Q: It's been scientifically proven that an embryo by default will become female.

Is creation in our universe identified as female?

God is female?

T: Not really.

Human foetuses are by default female but there are species out there that have more than 2 genders.

Is it the same case for them?

Maybe not.

The default of Creation is ungendered.

Gender is chosen for the fun of it.

1:26:10

Q: Will we be aware that we have changed from 3d to 4D?

Tolec said that more than likely, we'll wake up and simply be changed

Does he mean waking up to the lie or waking as in sleeping?

T: He means you open your eyes tomorrow sort of thing.

1:27:54

Q: What happened to people lost in the Bermuda triangle?

S: Some of the vessels have been spotted out in space, drifting.

There's a lot of wrecks at the bottom of the ocean and the rest in various

dimensions.

The Bermuda triangle is a Seagate....

T: There's evidence of time travel, dimensional travel.

Travel between planets and universes.

There is a gate there.

It does stuff, takes you places.

You don't want to go through a gate that's acting rogue because rogue gates are very unpredictable.

You don't know where you end up and whether it's survivable with the equipment you have.

S: That gate has been fracturing and spiking for quite a while.....

1:29:24

Q: What happened to the beings who lived in the Serpent Galaxy?

T: Without more context, can't say.

1:29:50

Q: Bashar - what message of his is hostile?

Is there subliminal information coming through his messages?

S: There are subliminal and mind control messages coming through every bit of the channelled information, especially those from the GFL, Ashtar Command etc

As for Bashar, he's putting his information above your own instincts and intuition.

Drake, Tanaath, and I keep saying to never to put anything above your own instincts, intuition and gut feeling.

T: That includes our own information.

We can get it wrong.

We're not doing that deliberately but we can be genuinely mistaken.

Use your discernment, always.

With gurus and teachers - a lot of their introductory stuff is all spot on.

It's there to hook you and fish out those who are capable of higher level action and then get them into that guru's power/control so that the ones capable of higher level action are then putting all of their energies and efforts into the cabal's goals.

1:31:45

Q: Is the rogue gate the crystal pyramid?

T: Yes, it's associated with the crystal pyramid at the bottom of the Bermuda triangle.

S: Associated but they are 2 separate things altogether.

1:32:10

Q: What does the terrain of Earth look like in 4D presently?

If one were to go into 4D before the shift, what will we find there?

T: If you go to 4D now, you'd see what looks like a ghost world.

You'd see the outlines of trees and animals.
There will be some plants and animals that are fully present.
You'd see a lot of higher dimensional beings that are .
It looks spectral, insubstantial in 4D but it's still visible.

1:33:04

Q: Who are the Wingmakers?

Do they exist and if they do, have the 7 sites been activated?

S: The original Wingmakers are different to what is out there now.

They are one of those groups that started out with very good intentions and information but they have been co-opted by the bad guys.

The 7 sites? Don't know. Need more context.

1:34:00

Q: Elizabeth Clare Prophet said that Kwan Yin was on the Karmic Board.
Who else was on the Karmic Board?

T: Karma, as it was presented on this planet as an accounting tit-for-tat of everything you do in your life - that was an invention of the Archon control system designed for one purpose only; that was to trick people into coming back again and again.

If they refused to come back, there are secondary measures in place to hoick people's memories and send them back.

So anyone claiming to be on the Karmic Board may not be doing it with anybody's best interest in mind.

There is true karma. It's a matter of your own accounting; for your own actions.

No other person / being/ consortium has the ability to decide for you what your karma consists of and what your karmic just do's are.

That is between you and Source alone. No one else.

1:35:55

Q: What is Kwan Yin's mission/purpose for the human race?

We've been taught that when we pass on, we stand before the Karma Board.

.....You said that the karma situation was an error

T: Yes, it was an error.

Don't know who Kwan Yin is nor why she claims to be on the Karma Board.

If they are on the Karma Board, given what I know about karma, I wouldn't trust this individual.

The last time someone tried to pull karma with me in between lives, I told them to eff off and stomped right out of there.

I don't know who Kwan Yin is

I don't accept anybody else's authority over me.

Karma is between me and my Creator and no-one else and is such for any other being.

Your karma is between you and the Creator.

No one else.

1:37:10

Q: Why would anyone not want to progress to 4D?

T: You're thinking of dimensionality in terms of progress.

One dimension isn't necessarily progressing over another.

Even beings who are very high dimension aren't necessarily better than a lower dimensional being.

They may have had more time at it.

They may have different abilities but that does not make them better.

In some cases, even high dimensional beings can be quite immature although this is definitely rarer.

It's all about the levels of experience, learning, experiencing.

There's experiences you can have in 3D, you cannot have in any other dimension.

There are experiences in any dimension that you cannot get in any other dimension.

It's all about experience.

In many cases, it's about having fun.

Some people honestly enjoy the 3D experience.

I think a lot more of us would enjoy this one if it had not been so tainted.

S: There's some people who are spiritually not ready to go on to 4D

They have more lessons to learn here in 3D

For them to move on to 4D, they'll miss out on a lot of lessons and experiences

Some of these experiences can only be learned here in 3D....

The most ideal thing is to learn as much as you can in each dimension before you transition up....

1:39:45

Q: I read an article that the battle between light and dark is increasing every day.

Gaia has taken sides to the light end and is going to start physical manifestations of this 'side taking'.

D: Won't discuss it because the particulars are not to be known at this point.

I've been in conversations with Gaia.

Have her full co-operation in what we are attempting to do.

Explain some things in terms of action she can take; she started taking immediately on my presentation of them.

Hope to see some interesting results in the near future.

1:41:31

Q: Alex Collier said the Andromedans are in awe about our creations that remain intact when we turn our backs and don't keep observing them

Eg while on a 2 month holiday, our house does not collapse back into the quantum field.

It'll still be there when we come back although we have not observed it for so

long.

Apparently they have to keep everything going with technology while we do it with our minds.

Is this a 3D thing because time is so slow here?

Will we keep that when we go into 4D?

S: This is a 3D thing.

It can be maintained in 4D but due to the holographic nature of the universe, it requires some sort of technology or some other method of maintaining its existence or it'll pop back in the universe and pop back out again

1:42:50

Q: Alex Collier talks about the Paataal, an ancient race that got themselves into this mess and the Andromedans don't know how to help them, I presume it was creating the 3D realms and physical bodies for inhabiting them and getting stuck in time/emotions.

S: I don't think it has anything to do with creating the 3D existence or getting stuck in one specific timeline or emotions

Haven't got a clear answer from Collier or the Andromedans or the Zenetae on who they are referring to as the Paataal, so it's difficult to answer that.

There's about 23/25 races involved in creating 3D realms.

So it's like who specifically designed it.

1:44:07

Q: The original souls that came with Mother Earth from beyond Ursa Major, the 60% - who are they, where did they come from and are they still here or was it some sort of ancient ascended group?

S: Don't know..... I don't think there were any souls that came with the planet other than Gaia herself.

1:44:57

Q: Why do the genetics of the races have to be mixed in 3D?

Why not in 4D?

S: This is the intention of the experiment.

We planned to have a 3D planet with different ET races.

See how they get along and progress and what happens when they mix together....

3D is not a bad place to be

1:45:30

Q: Who is Jehovah?

D: I don't have much patience with anyone who says, "follow me and I'll take care of your wants and needs." and then turns round and say, "Thou shalt not.... or you'll get a lightning bolt."....

1:46:35

Q: The other 3D planets - were they seeded by the same group of races?

S: No.

There are 22 to 25 ET races involved with seeding Terra.

There are trillions of 3D planets.

1:47:00

Q: Do you know Ramcha, the commander

S: No

1:47:10

Q: What do you know about Hybrazil and Avalon?

S: Hybrazil is off the coast of Ireland and it is an island [inaudible] that is holographically cloaked so it only appears every once in a while.

Most of what is in myths is true.

Not sure what Avalon refers to.

From what I understand of the legends of Avalon, it is an off world planet.

D: There's 3 of them

And the 3rd one is the one everyone wants to get to.

It's well hidden.

Nobody is allowed to go there yet.

When the time comes, people will start to experience it.

1:49:15

Q: There was an experiment with the holographic information of one species that was beamed on to another species.

The second species changed according to some characteristics of the beamed information.

Is that what is happening here to turn our 12 strand DNA and force the frequency increase?

S: No. The DNA will be activated naturally when the transition hits.

That was an experiment which has nothing to do with the remaining 12 strands of DNA being activated [inaudible]

1:51:03

Q: Main Andromedan races/civilisations?

Are there negatives?

S: Depends on which Andromedans

There is an Andromedan constellation and an Andromedan galaxy and the Andromedan Council.

No negatives in the Andromedan Council.

They are positives or neutrals.

Suggest go to their website

Take too long to answer the question.

There are positives and negatives in the Andromedan constellation.

One of the more popular well known races is the Zenetae, which are in communication with Alex Collier.

They are human, range from 6 to 9 feet in height, no body hair.

They are positives; orientation is science.

They are the ones frequently spotted around the sun, doing upgrades to that.
Alex Collier said a lot about the Zenetae.

1:52:55

Q: I understand my spirit is a fractal of God

The body needs to be calibrated to spirit.

To start this process, does the human body house only a little piece of me?

As I do the self work and frequency increase, am I growing that little piece of me?

Or am I bringing in more pieces of the original me?

D: Fractals are created under the "Big Bang" or the extraordinary expansion of reality into fruition to the extent it is presently.

At the point the acceleration reached its maximum, there were no more fractals composed.

Each and every last individual beyond that point is an extension of a part and yet distinctly independent of Source.

In order to pull yourself together, forget the fractalisation, the shattered glass ideology. Simply look at it as a 2 part deal.

You put eggs in bread and cakes to make them congeal and hold together....

In wanting to make a quiche, you can either have scrambled eggs from impatience or you can be patient and have a quiche.

The problem most people have is that they want it now and in some cases, you got to get your stuff together so you don't bring your dirty laundry to your Higher Self.

Do not bring problems because it might not be the best situation for you.

So what you want to do is to get it like eggs in a cake and when you put the 2 together, you can have a full deal.

You have to be patient first with yourself to get to where you want to go to make the contact.

You'll know where you're going at the time you make that contact.

It will feel good to you.

There will be no darkness.

There will be no adversity.

There will be nothing that has any kind of funny smell to it.

It will just be andit just doesn't get any better than that.

Forgetfractality that goes to duality and multiplicity of man.

That's been put to us by the cabal; not by the truth.

The truth we are a three part B:

Body - you walk around in it; soul which is a combination; catalyst operates the body and has the capability to plug into spirit.

When you get to the point where you plug in, you'll have a roller coaster ride.

You're in a car but you can fly like that forward.

Have fun and enjoy.

1:57:20

Q: How do the 5 different sexes work?

There are the male, female and androgynous - that makes 3.

How do the others work and what are they?

S: It varies because we 4 sexes; we can have 5.

We have more than that.

Some of them are a blend of the male and female and a variation of the other...

I'll have to check my notes to answer...

1:58:26

Q: What crashed in Needles, the Colorado river about a year ago?

S: Don't know

D: Heard it was part off world, part on-world technology which they found out was incompatible.

It didn't turn out right and fell out of the sky.

1:59:18

Q: What did you learn about the ISON comet?

S: Gave answer a few weeks ago [inaudible]

Nothing to worry about.

1:59:49

Q: Can you tell us about Adam's calendar and the circular rock site in Zimbabwe?

D: There are ways of turning these sites on, like Stonehenge and others.....

Don't want to give out too much information.

Don't want people to get hurt.

2:01:40

Q: Have you heard of anything that'll happen on or around 4th July?

S: I've heard of a lot of things that are going to happen on that date.....

I don't pay a lot of attention to them.

It's just scare tactics

Nothing bad predicted happened.... Only thing the false flag announcements do is cause those who would step in to stop them.....

People keep usurping their invasion attempts

BREAK

2:15:23

Q: Alex Collier said not all of us will make it to 4D because of our negativity and lack of love and that we'll have to start over and eventually evolve to get there.

Is that true?

S: What he is trying to get across was that there are those not spiritually ready in one way or another to move from 3D to 4D.

This is why the Andromedan Council, in association with the Federation, is

providing the biospheres to take those who are not ready to transition to 4D, to the new pristine 3D planet; so they can continue their lessons and experiences and growth in 3D until they are ready to transition themselves as individuals.

2:16:27

Q: Medical issues will be addressed with this transition.

Obesity - will this be an instant fix?

S: That will be an instant fix.

There will be some medical healing and treatment prior to transition but what doesn't get fixed prior to the transition will be fixed slightly after.

2:17:00

Q: Once we get into 4D, I will be able to communicate with my son who has passed away.

How will my 4D body image compare to his 4D essence?

Eg can I give him hugs and kisses?

S: Yes, definitely.

Physicality exists all the way up in all the dimensions and the way you appear now as one 3D person to another is very similar to how 4D people appear to each other.....

Any kind of physical interaction is possible in 4D and higher.

2:17:52

Q: Meaning of the crop circle in Italy on 30 June?

S: That one was man made.....

Very well done but man made.

2:18:34

Q: What 'coming from a planet' really means.

Supposedly you come from another planet if you're an incarnate but aren't we all souls of the same Source?

S: There's multiple Sources.

You have a Source for every universe and then you have a Source for every multiverse cluster and it goes on from there.

Yes, we all come from Source.

But in coming from another planet and coming to this planet as an incarnate and going to any other planet in an incarnation - that means there has been step in between coming from Source to a planet.

It means that you originated in your current life from that specific planet and came to this planet or whatever other planet you choose to incarnate on....

2:19:44

Q: Neutrals - are we talking about an alignment like being between positive and negative?

Or is a neutral a denomination that we give to civilisations that don't want to

get involved in our current debacle?

S: A little bit of both. [inaudible]

Some neutrals will side with the positives.

Some neutrals will side with the negatives.

The majority of neutrals are saying, "Hey ...I'm not siding with any one group ... Sort it out for yourselves. We live over here by ourselves. When you guys get it sorted out, come and say hello."

It's the polarities; like positive, negative, neutral.

It's their vibrational polarity.

2:20:53

Q: How exactly will we know if we're in 4D or not?

S: It will just be so different

These are questions to ask Tolec.

The colours will be more vibrant; sounds, sights, all that.

2:21:35

Q: Alex Collier and Hank.

S: Hank was not part of the Andromedans or part of the Andromedan Council.

Hank was Federation and when those ships were able to land in that time frame, it was possible at that time.

The restrictions have been more recently.

In the recent past 3 to 5 years - that's when the restrictions have been in place.

... We are dealing with a totally different time frame....

For those who want to know more about Hank, that question has been answered somewhere in the last 4 episodes.

Look in the transcripts being provided by Thomas.....

2:25:00

Q: Tanaath, when you came to incarnate in this current lifetime, which dimension did you come from?

Is your other body in stasis such as an avatar?

What dimension did Sunfire and Drake come from?

T: Don't know what dimension I came from.

As I recall, I was non-dimensional; dimensionally exempt.

I have been in the 5th and in others higher than that and lower than that.

I don't have a native dimension...

No, my body is not in stasis.

I use it.

I bilocate.

D: [inaudible]

S: My origins co-incide with Tanaath.

I'm not specifically from 1 dimension or another.

My recent dimension is 5D Tau Cetian but I've been in dimensions all the way

from [inaudible] up to infinite and everything in between
I do use my body.
Even when I am awake, I can bilocate and do stuff.

Q: Drake, are you multi-dimensional?

D: I seem to come from everywhere and nowhere and all the places in between

2:27:06

Q: Are we collecting different 3D bodies for different environments?

T: Collecting bodies? That sounds creepy. I don't know.

Q: Do we get different bodies for different environments?

T: Yeah, if you get born into them.

There's a couple of ways to get a body.

One is sort of like an artificial interface.

We've talked about why this is generally undesirable.

The other way is to get born into them.

Have an existence in that body and then you get to use that form again when you need to.

Convenient, hah?

2:28:17

Q: If the Galactic Federation of Planets doesn't know exactly the date when Earth is going for transition, how will they manage to organise biospheres to move those people who want to stay in 3rd density?

Isn't there a risk that they will go to 4th density because those biospheres won't be here in time to pick up people that want to leave?

S: The biospheres are already in the solar system.

They're part of the 20 to 25 that people keep seeing all the time and keep calling 'Nibiru'.

They're already here so that won't be a problem.

2:29:05

Q: Difference between negative beings, positive beings and negative beings that do positive work?

Is it like vampires that eat deer or sheep?

T: A being can be positive and still do things that are destructive or gratuitously harmful.

A being can be negative and still do things that are productive and healing or helpful.

There's ways to use negativity to heal.

If you've got somebody who has serious trauma, a negative healer can actually go in and remove the trauma, destroy or remove the negative energy, consume the negative energy generated and leave behind positivity in its place.

So there are ways in which anything can be used for good.

And there are ways in which anything can be used for evil.

Everything can be two tailed.

What matters is intent.

Eg what somebody intends to do or wants to come out of that particular action and there are even positive beings that are capable of being egotistical, selfish, self-absorbed and arrogant and who might even perceive their own way.

A good example of this is a positive being that may perceive its own way as superior and wants to "help others" by forcing them all to that supposedly "superior" path.

That would be an evil act if it counteracts freewill and is forced upon others....

Evil does exist.

Evil you can consider to be gratuitously malicious or that which goes against freewill on a broad scale.

Any being that is attempting to seize control over vast portions of existence is acting evilly.

Anything that is gratuitously harming anything is acting evilly.

If somebody takes another living intelligent entity and then tortures that entity for its own amusement, that is an evil act, regardless of whether that being could be considered a generator or consumer of power.

2:32:15

Q: Does the library ship have all the records of what is in the past and the present?

T: Possibly, depending on who you are.

The library ships generally only have records that pertain to the people that run the library so eg if you are an Andromedan and it's an Andromedan library ship, then there might be records pertaining to you.

But there might not be records for somebody who is not an Andromedan on that ship.

2:32:50

Q: I feel such a very intense urgency to learn as much as I can and as quickly as possible.

Yet I am overwhelmed by all of the information.

Suggestions for learning faster or does it not matter?

T: Follow your internal guidance and instincts.

Is it your head that's telling you to hurry, hurry hurry?

Or is it something inside?

Because if it's something inside, ask that for some more guidance.

You can do that.

You might find yourself being drawn to that stuff that is relevant to you.

Not everything is relevant.

We have an information saturation.

There is just so much information out there that it floods a person.

A lot of stuff is incorrect and a lot of it is misinfo.

A lot of it is delivered disinfo that was put out there in order to flood and muddy the waters and make everything hard to follow.
Follow your internal guidance on that.
It's your best compass and your best map.
Your discernment and your internal guidance.

2:35:00

Q: When was NESARA enacted into law and who were the signatories of this legislation?

D: Look it up on the website....

I know it's valid as I checked on some of the references to case numbers etc that are contained in posts on the website....

I understand that it's going to be implemented.

We can look forward to some nice things.

2:35:45

Q: This person believes it was signed into law in 2000 and if that's true, why has it had no effect in 13 years?

D: Would you give up your money maker if you didn't have to?

Why would the Supreme Court seal it up?

Why would it be hidden?

How come they don't want anyone to know?

Because they want the money.

They want to own you.

They want to keep the control.

They don't want you to know.

2:36:23

Q: Insight into unleashment of serial killers I heard of in the 1970s

One notorious killer was even photographed that looked like a T-rex taking a bite out of another animal.

D: Don't sound like serial killers if they're animals.

T: Probably a reference to reptilian incarnates

2:37:05

Q: If anybody out there knows how to set up a new THP chat, please contact me at onefreepeople@gmail.com.

We're having problems.

2:38:31

Q: A few years back, I had a session with a spiritual healer.

During that session, she told me that my father, who died in 1991, was still with me but he would not go into the light.

She asked me if I wanted to release him into the light and I agreed that I would

Comment and how do I help my father?

Comment on spiritual healers.

T: That depends on the spiritual healer.

Some spiritual healers are very well meaning and effective.

Others are scam artists.

It depends on the individual and no, I'm not going to tell you if somebody is legit or not because I don't really have anything to do with most spiritual healers.

As for your father, If he was trapped in the reincarnation trap, it generally is not an instant thing.

So if he has passed in the last 50 years, he's likely free now and is able to choose what to do himself.

2:39:35

Q: Dr Richard Boylan is saying on 24th to 27th of this year, a mothership will hover over Cleveland and star nation envoys will come down to Cleveland public square and meet and greet.

He speaks of Solar Warden - a supposedly secret space program.

Do we have a secret space program?

Richard Dolan has spoken of this

If so, is this rogue or do they work with star beings that are here now?

T: Yes, there is a secret space program.

They've been working with the negative star beings.

Mostly the Greys and the reptilians, but also a few other kinds of negatives that are hostile.

As for a mothership over Cleveland - that's the first I heard of it.

I'm sure there are many different groups that have many different plans.

Why Cleveland?

It's oddly specific.

Of all the places on this planet, why Cleveland?...

Denise: Probably where Dr Boylan lives

2:41:20

Q: There may be as many as 60 billion extra planets in our galaxy alone in the so-called habitable zone.

A planet needs to be just the right distance from its star so that its water is available

Do all species require water as we humans do?

T: No. We're carbon based and O breathers [oxygen breathers]

Because of that, we do best at temperatures in which water is liquid.

However, there are beings that breathe methane.

There are beings that live inside suns or inside magma and if you bring them to lack of pressure found in the atmosphere of our planet and the lack of heat, they'd die.

These so-called Goldilocks stories really support carbon-based lives well but they don't support all kinds of life.

There's so many different kinds of life out there.

Any planet can be habitable to someone.

2:42:42

Q: Did we answer the question about the moon hitting the Earth and if so, how many times?

T: The moon didn't hit the Earth.

The moon was towed here and did not hit the Earth

The reason the rocks of the moon are believed to be ½ billion years older than the rocks of the Earth is because it was towed here from somewhere else.

It's actually a spaceship.

2:43:38

Q: I have watched a few YouTube videos by moonhitsearth.

A lot of the satellite images of the moon that he superimposes over Google Earth did seem to be very convincing evidence that the moon has hit the Earth several times.

Is the moon larger than Earth? If so, how much larger?

T: No, it's smaller than Earth.

It is hollow.

Q: Is the moon a planet?

Is it what many refer to as Planet X or the secret planet?

T: No, it is a spaceship and hollow.

2:45:20

Q: The YouTube clips from the camera at Popocatepetl, volcano in Mexico They show UFOs entering and leaving.

Fact or fiction?

T: Fact.

S: It's a portal

2:46:00

Q: Who do those UFOs belong to?

S: The cigar shaped ones are either reptoid, Greys or cabal.

I've seen some other ones that look like positives.

2:46:35

Q: In the 4th dimension, will I be able to get the technology to miniaturise myself?

How small will I be able to shrink myself eg 1 or 2 millimetres?

T: No idea.

2:47:10

Q: Is the sun we view now a cabal made hologram?

T: No. The sun is real and it is often not yellow.

It's currently turning white and it will be blue eventually.

2:48:40

Q: I went to bed wanting to visit the Silver Legion in a lucid dream.

I was there and it seems that I felt good about it.

I decided to become a member if accepted.

I was and when I received membership, another man was accepted also and it was former Canadian Prime Minister Pierre Elliott Trudeau to whom I spoke to.

Is this man really involved with the Silver Legion?

T: I wasn't aware that Trudeau had joined.

Trudeau, when he was alive, had many fingers in cabal pies.

Obviously, he's had a change of heart somewhere.

Any time you're visiting the Silver Legion, keep in mind that there are those who are trying to make it so that you can't reach us.

Always do your 3 times checks with anybody claiming to be a Silver Legionnaire.

I've talked about these 3 times checks on this show.

I've talked about them on other radio shows and I've talked about them on the FAQs on my site.

Do your 3 times checks.

It's something they can't lie through.

Not possible.

As for Trudeau, that would be interesting.

But given his cabal ties, I'm sure he would have to undergo quite a bit of rehabilitation before he would be permitted to join.

2:50:43

Q: Since we are all going to be returned to good health and restored, will the animals that have been spayed or neutered be returned to their original state?

T: Yes.

They will and before you worry about getting flooded by puppies and kittens etc, they will also have the ability to decide whether they want to get pregnant. They'll understand the consequences of sex so it's not going to be rampant overpopulation.

The way it stands now, it is a humane act to spay or neuter your pet because they do not have the ability to deny conception.

It does create a situation where you have animals that are living in a great deal of suffering because no human is able or wants to take care of them.

So after transition, that won't be a problem.

It won't be necessary to spay or neuter your pet.

It would be rather offensive to try it.

2:52:23

Q: Nano smart dust - what are you guys doing to get rid of that, what progress you have made and what can we do to get this out of our body?

T: This is related to chemtrailing.

There are measures being made to counteract the nano dust. Because this is operational, I can't discuss further.

We don't have a progress report we can hand out.

It's not going to be an issue.

2:53:06

Q: If I choose 4D and my children choose 3D, will we still be able to be in each others' lives as we are now.

T: We've answered that.

The answer is yes.

2:53:30

Q: If the ETs do not want to directly intervene here in human affairs like freeing us from the Dracos, why don't they help us build an Earth special forces unit which has advanced weapons so that we can go after them.

T: There are measures being taken for this but this is operational information and I can't disclose a lot of it.

They have been dealing with Dracos where they can directly so it's not like we're leaving you high and dry.

2:54:22

Q: is there a way to tell if you remember something spontaneously if it's coming from yourself or from an external source?

I'm trying to remember things and it's often all very hazy....

T: Use your discernment.

That is the only way.

Nobody else can tell you whether it is true or false, right or wrong.

Yes, people can try to implant memories or knowledge into you.

False knowledge even.

It is up to you to use your discernment and decide.

Does it feel right?

Or is this something that is putting on to me?

2:55:19

Q: What was the name you heard at age 16?

T: It was relevant to the life I had in Atlantis.

It was the name of a friend I had in that life.....

2:56:07

Q: How is Japanese and Korean related to Chinese genetically and historically?

T: Historically, I'll have to look for the history of that

Genetically, most of these people have heavy sprinklings of Procyon and Andronii genetics.

You also see the Ventrons.....

2:57:20

Q: How is the political situation in SE Asia and has Singapore been facing the threat of the dark cabal as well?

T: I'm not well versed in the conditions in SE Asia...

Ben Fulford is fairly well versed in what's going on in Asia.

I might check out his material, if I were you.

He's not on the ball with everything but he knows Asia.

2:57: 57

Q: To live in our universe, there are 4 main categories: hydrogen breathers, oxygen breathers, methane breathers and ammoniac breathers.

Is it true that hydrogen breathing creatures are the most common ones in the universe?

T: No, all breathing humans seem to be the most common variety

BREAK

3:07:23;

Q: In a show you said we were fooled after death to reincarnate on Earth. You called it a soul trap.

You said you met with a being in a room which can show up as a known person on Earth and that it convinced you to come back to Earth to fix things. Did that happen right after you left your body?

Or did you have to pass through some sort of tunnel in order to get to that room?

Is it true that soul recycling has been terminated?

T: I don't know what is meant by 'soul recycling'.

There's a couple of different things that are getting muddled here

Yes, typically when the soul trap is activated when one died, one got shunted into a illusory holding pen that was designed to look like whatever that person believed in.

If you were Buddhist, it was designed to look like a Buddhist afterlife.

Christian - it would be meeting St Peter at the Pearly Gate

If you were Muslim, it would be appropriate to that faith.

Whatever your beliefs are, you got shunted into whatever looks like that.

This also happens with near death experiences as well, at which point, they usually said, "Oh, it's not your time yet. Go back. You're here a little bit early. But here's a glimpse so you can go back and tell everyone what you saw."

At that point, you would be confronted by beings or a being who would then discuss your life with you and then say you have an opportunity to make things right. You just have to go back.

Yes, I did go through this several times in several different lifetimes on this planet.

The most recent human lifetime on this planet, roughly 3 or 4 hundred years ago, before smallpox reached the west coast, I was a west coast medicine woman; the Salish people, the people who are now known as the Salish

What was left of my band, they perished of smallpox after I died.
Their historical remains can be found at museums at Seattle.
After that lifetime, I went directly to this board of karma set-up where they told me that I had to go back.
I said, "No!" and I left.
At that point, I resumed my higher dimensional existence.
A couple of hundred years went by while I was doing my thing, I was approached by other beings who said, "Tanaath, we really need you down on that planet."
I said, "Hell, no! I just got out of there."
They said, "Yeah but we really need you down on that planet."
And I said, "You better give me some evidence as to why you need me and it better be worth it."
Finally they convinced me and yes, I decided to get born on this planet and here I am.
It was not related to the Lords of Karma and it was not related to the reincarnation trap.
It was a voluntary intentional incarnation and I was able to recover my memories during this life or at least those that were relevant to this mission, which is also something that does not happen with the reincarnation trap because they do their best to wipe you before they sent you back.
I have never remembered who I was in other lives on this planet.
This time I did because I wasn't coming back from the reincarnation trap.
I came back deliberately and yes, it's been difficult.
It's not easy to live in 2 worlds.
But it's still worth doing, for your sake and for the sake of the entire planet.

3:11:38

Q: If we choose to go to 4D on Terra and decide we don't like it that much, can we then rejoin our friends in 3D on the new planet?

Or would we have to reincarnate as a little baby again?

T: You'd likely have to reincarnate as a little baby but it wouldn't be that bad.

3:12:05

Q: About 3 years ago, a dear friend passed away from cancer.

She's been a member of the Church of Christ for most of her life and she totally believed that if you're not a member of her church, you'd go to hell when you die.

What happens to those who so strongly believe in their religion when they pass on?

Do they live on in 4D or do they get re-educated?

T: You don't see that kind of religion in 4D.

Religion doesn't generally exist in 4D because people have moved past the need for it.

Religion on this planet is artificial.

It was planted along with genetic tendency towards religiosity.

Both were planted in an effort to control the whole population and keep us divided amongst one another so that we'd be fighting rather than helping one another.

Because united, there is nothing that can stop us.

But divided, we are much easier to conquer.

That was the intent.

Prior to the fall of the soul trap, when this person passed on, she'd have experienced something very much in line with her deeply held belief.

Post soul trap, I'm not exactly sure what she would encounter but it would likely be an opportunity to learn and no doubt, there would be a lot of "Oh, ohhh." going on

3:13:34

Q: People from Procyon appear to be in the same situation that we're in on this planet, which they freed themselves.

The Reptilians can be very tough opponents to overcome.

How did the people from Procyon managed to beat them?

S: We answered this last week

Look up Khyla in bibliotecapleyades.net or listen to past 3 shows.

3:14:39

Q: Who is in control of the reptilians?

Is it the Archons?

T: No.

When people say the Archons, they can mean any number of beings who have been involved in the control apparatus, so I would have to say "No" because it's like saying who swims in the ocean? A fish?

It's not encompassing enough or specific enough.

Yes, there are beings in control of all of the reptilians.

In some cases, the reptilians aren't even aware of this fact.

As for who they are, right now, that is still being uncovered.

3:15:23

Q: I have always been curious about the contactee movement of the 1950s. A lot of ordinary, everyday people claimed to be telepathic and have physical contact with ETs .

This is documented in the movie "Farewell, Good Brother"

S: I know that was based on real events

T: I was not a UFO buff before I got the call to work

Q: Can you comment on the work of Dr George King and the Aetherius Society?

T: No knowledge

3:17:00

Q: What choice will people have in prison?

Will they be able to leave their prison and join those who want to travel to the 3D world?

Won't it be dangerous to release the real maniacs?

T: Everybody will have the opportunity to receive healing.

In a lot of cases, people who are in prison, especially in North America, are suffering from the psychological impact of abuse and poor opportunity....

In some cases, they are mentally affected either by mental disease or by damaged intellect, lead poisoning.

Lead poisoning has been linked to criminality

I wouldn't encourage anyone to discard people who are suffering from lead poisoning.

Instead, treatment and an option for those people to move forward in a positive manner would be more sensible than imprisoning them for life for actions which may or may not be within their full control

But we currently don't have the means to treat people in our society who are suffering from them; that kind of disability and that kind of mental disease.

No, it is not the practice of the Federation of Planets to discard beings that are suffering from inflicted issues.

It is the practice of the Federation of Planets to offer those individuals the opportunity to heal and move forward in a positive, productive manner.

If after healing, the individual still choose to be assholes and murderers, we have measures to deal with that as well.

Most of it involves sending them back to Source and saying, "Better luck next time. Try again."

Or evicting them. Kicking them out of peaceful state and telling them, "If you really want to poop, go poop in somebody else's backyard. Poop in your own. Don't poop in ours."

3:19:33

Q: Is monatomic gold still sought after for enhancing and repairing bodily functions?

T: There are people who eat it for this purpose

It's not necessary

You won't need to eat any special substances in order to be a whole human being

3:19:59

Q: Did NASA hoaxed all the Apollo missions to the moon?

S: They did the first 4, 5.

They ran into some positives that were on the planet at the time and told them, "Don't you ever come back. If you do so, you won't like it."

It was mostly too dangerous for Terrans at the time to be going to the surface of the moon because there's way too much stuff on the moon.

I understand they haven't been back then.

3:20:48

Q: Is it possible that John Kettler was being messed with when he said that reptilian bases are not cleared and there was a UFO war in the Pacific last year?

Was it mind control?

How do we know if Tolec and others have been affected in the same way?

S: I can't say if Kettler was or was not at that point

I don't know.

I do know that Tolec had far more [inaudible] because we had contacted the Procyon and able to [inaudible]

I can't answer question regarding Kettler.

I haven't had any contact with him for an extremely long time

3:21:58

Q: A few weeks ago, you said the incarnates will be remembering their origins in a few weeks

Are we really that close to that moment?

T: I don't think I said "in a few weeks".

I don't know who said that.

I imagine that people will start to recover their memories more the closer we get to transference

3:22:20

Q: Can you comment on the DNA shredder?

T: Without more information than that, no.

3:23:22

Q: If ascension is in the next 6 months, everything will change on the Earth for the better, why is it still important to take down the cabal?

Can the cabal survive ascension?

T: It's important because we want this planet to have as good a start on 4D as we possibly can

If we are combating subversive operators while we're doing that, it's going to be very difficult.

It's going to mean more work.

It's going to mean that people are going to suffer longer.

It's going to mean that they might be able to sneak in and hide somewhere and we don't want that to happen.

We want to root them out as much as possible before transition.

3:24:16

Q: Do you know who Rod Pye is?

What do you think of his theory of evolution?

We watched a 1999 video showing how hominid Big Foot was the descendent of the apes and the original true entity of Earth.

When the Annunakis came here, they mated with them.

T: No.

There have been hominids on this planet.

Big Foot is not the original inhabitant of this planet.

Big Foot, Sasquatch etc are dimensional travellers and they are not native to this planet but some of them do live here.

The Annunaki did not create humanity, no matter how much they like to take claim for it.

We've discussed the 24 to 26 ancestral groups that were involved in seeding human life on this planet.

That is the origin story as the Galactic Federation of Planets is concerned and they were here when it was going on and they were involved in it.

Q: Is there going to a list of the different ETs coming out eventually?

T: Eventually. It probably won't come from us.

S: The Galactic Federation of Planets is planning a Hitchhiker's Guide to the galaxy

but I don't know how extensive it will be or when it will be implemented.

3:26:53

Q: Have you heard of Sufis?

True origins?

T: It is very peaceful form of Islam, concerned with peaceful betterment of oneself.

Many Sufis were able to attain something akin to ascension if not outright ascension itself.

Although they did not likely call it that.

There's nothing wrong with the Sufi tradition which is likely why the CIA and Nazi and cabal backed Muslim Brotherhood has tried so hard to wipe out the Sufis, along with the Ismaili Muslims who are very, very peaceful.

You hear a lot about the Sunni and the Shite movements but you don't hear a lot about the Sufis or the Ismaili or the other more peaceful moderate paths of Islam.

That's because the cabal want you all freaking out about their own cabal backed Muslim Brotherhood that's artificially created and does not represent what Islam is all about at all.

3:28:26

Q: What do you think of Zen?

What do galactic beings think about these types of spiritual paths?

What ways do they have of growing spiritually?

S: Mornay commented that Zen and Shinto were probably 2 of the closest [inaudible] system on the planet to what is known up amongst the positive ETs
Spirituality amongst the ETs - there is no separation between spirituality and science.

They have physical evidence

3:29:44

Q: You don't approve of channelling.

What about the channellings of the Pleiadian network?

T: Which Pleiadian Network?

A lot of different beings can rightfully call themselves Pleiadian

They can have networks and still be telling the truth ...

That doesn't mean that they are on your side.

There is a lot of ways to lie, using the truth.

Channelling uses a lot of that.

You see various authorities popping up like mushrooms... supposedly casting themselves as members of a hierarchy over us.

That doesn't fly with me

There are no authorities that have hierarchical position or control over us.

We are a free people.

S: The Federation still holds its stance on any channelling

Channelling is possession and is not permitted nor legal in the Federation.

It's hard to find a positive being that will violate the free will of another being and participate in a channelling

3:31:32

Q: Alex Collier talks about a mini solar system entering our galaxy [solar system?] some time in the late summer and the trail of debris that will make a mess of Earth.

S: That's not going to happen.

T: I think that's been prevented

3:32:00

Q: Where do the people of Mexico come from?

T: The Spanish are descended from the Aldebarans

S/T: The native tribes of Central and South America were Dakote and some Nikotae and some Procyon.

S: There's a lot of Procyon in everybody.

There's higher concentration of reptoids in the Mexicans along with most of the central Arab countries.

T: That does not mean they are evil.

3:33:50

Q on Tanaath's and Sunfire's appearances

3:35:48

Q: Why do cloned animals have a soul?

T: I don't think cloned animals have a soul

S: Cloned animals do have a soul.

It's cloned humans that don't

With cloned animals, they're taking the genetics and DNA from one animal and inserting it into the egg of another

A clone being born is different from the clones that we've talked about that are

made in tanks etc.

T: We don't have publicly released technology to live clone an animal.

It has to be fertilised into an egg and born.

Live cloning of human beings is not done via fertilisation at birth.

It's actually an adult physical copy....

I've noticed with some of the clones that are born that they don't necessarily look like the original did, in some cases

S: [inaudible]

T: It's a different soul in there; not the original soul

3:37:40

Q: True or false:

Tolec is stating in his website that Earth along with the solar system is crossing 4D space and then our solar system will vibrate at 4D.

Our sun will also become a blue white star

T: Yup. The planets in this solar system - a number are already 4D or higher
The lowest dimensional planet in this system is Earth.

So it will be going up.

3:38:59

Q: Will our pets be healthier and live longer in 4D?

T: Yeah.

3:39:20

Q: If we can't afford to eat organic and have no place to grow our own food, what can we take to counteract the GMOs, the smart dust and the chemtrails?

T: Make the next best choice,

The best choice is home grown organic

The next best choice is purchased organic

After that is grocery store regular produce that you can afford that is as fresh as possible or flash frozen and picked at ripeness.

If you can afford this or can't get access to this, you have a problem.

Then try to reduce the damage by cutting out the extraneous sugars and starches from your diet.

So if that means eating cheap cuts of pork, then that is the next best choice to eating hamburger helper.

If you can afford it, there are supplements that can help you.

I don't use supplements as I can't afford this.

I can't make the best choice either so I make the next best choice.

There are supplements that are really good

If you are buying vitamins or multivitamins or anything like that, look for things that have been derived from plants and animals and things that exist in nature that have not been chemically isolated

Eg it is much better to get your vitamins from plant concentrates than from something cooked out of a chemist's vat.

It's much better to get omega 3 from fish than from unknown sources.

Look for sources that are as pure as you can
Often they are more expensive than the adulterated variety but you get much more bang for your buck.
And there's sunlight.
Light is very good for you.
Get as much of it as you can, especially if you live in the far north

3:42:12

Q: My lucid dreaming has been getting to the stage that in every sleep, I am able to control what I'm doing in them pretty much all the time

What might this signify?

T: It signifies that you are having greater and greater control of your dreams. That you are regularly lucid.

Congratulations.

A lot of people are never regularly or reliably lucid

That's a great step forward

The next step forward is what are you going to do with your lucidity.

Now that you've got it, what are you going to do with it?

In your dreams, possibilities are endless.

Stay and play around in the dreamland.

Or you can attempt to leave and see what you can find out because the barrier between the dreamland and the astral plane is very thin.

So it's not a very big step to go from there to the next.

Many people never ever achieve that.

It takes a lot of practice and hard work although it comes easier to some than to others....

I'm not even lucid that regularly.

That's quite an achievement.

3:43:42

Q: How easy is it to make the reptilians angry - the reptilians, the Dracos and the Hydras?

T: They have a really flash temper

S: Why would you want to make them angry?

T: I wouldn't want to near one in this body when it's angry because I would last about 5 seconds, if that.

S: I don't recommend that anybody try to make a Draco angry in a 3D body like this.

T: Don't give them cocaine either because bad things happen

S: Don't give them Drano either. That gets them drunk.

3:44:38

Q: Please explain why we would appear to others to be dead when we transition to 4D?

T: If you were to transition right this instance, you would likely not take your body with you.

So you will be leaving a corpse around
That would freak out your friends and family
Denise: Like the way the cicadas leave their shell.
T: Yeah, ... kind of the same thing except they won't be able to see the new cicada
They'd just assume you were dead.
When the whole planet goes, it won't be like that

3:45:33

Q: Who were the white people who visited South America and Central America before the Spaniards?
T: There's various races with white skin tones
Some of the Pleiadian groups have white skin tones, including the Alcyones.
The Aryans have white skin tones.
Ventrons
The people of the Pegasi system
S: The Tau Cetians from the Epsilon (?) system
T: One of the two human species of the Annunaki tended to be pale....
The Procyons
I'm not too sure who that would have been
There's a lot of potential candidates.

3:47:25

Q: I've seen a huge jump in the numbers of people wishing to make contact with our star family...
Several groups now offer skywatching...
How does the Galactic Federation feel about the contact movement?
T: We like it.....
S: The Federation completely supports any kind of movement like that.

3:48:28

Q: What advice would you give to the organisers?
T: Be very specific.
Request only positive sightings and visitations.

3:49:00

Q: After Tolec said our solar system will become 4D, he said the star Tekoma and the people of Nihohia will be tractor beamed to our solar system.
This will make our solar system a binary system and the people of Nihohia will also become 4D because the whole system is going 4D.
Comments?
Describe the people of Nihohia.
Why are they coming to our solar system to transform to 4D?
S: Ask Tolec

3:53:00
